

Important Information

All D.E. students must follow the adult student class schedule (i.e. no early release on Wednesdays).

Students must be seniors to participate in D.E. (must be on track to graduate and in their final year of school).

Some programs are full time. Therefore, DE students may have to spend their entire day on the TECO campus.

Most Programs will NOT be completed within one school year and will **require** class attendance beyond the traditional last day of high school for seniors. *Students will be responsible for program fees (tuition, lab, registration, and textbooks etc.) following the students high school graduation.*

Students interested in signing up for Dual Enrollment at TECO must apply through their High School Counselor at the current school of attendance. The High School Counselor or student must submit the completed TECO course selection sheet prior to submission deadline (check website for deadline).

All D.E. acceptances will be **based on an interview, orientation attendance, and available seating** as determined by TECO administration.

Dual Enrollment students are responsible for all program costs other than tuition, lab fees, registration fees, and textbooks (homeschool and private school students must purchase textbooks).

The minimum TABE entrance Score is a 6.0 grade equivalency.

All D.E. students must maintain a minimum **B average** in their D.E. program.

Students interested in the LPN (Licensed Practical Nurse) program will need to take the TABE A level and receive a 12.0 or higher in reading, language and math. Once these scores are received, the student will then be eligible to take the HESI (Health Education System Inc.) exam. The HESI exam fee is \$55.

****All passing scores on the HESI must be obtained at one testing. Students are responsible for the \$55 exam fee.**

***** TECO requests that LPN students be **18 years old** and older (Students must be 18 prior to clinical placement).**

Students interested in Cosmetology, Medical Assisting, Pharmacy Technician, LPN, Medical Lab Assisting, and Medical Coder/Biller are required to pay a \$19 Liability Insurance fee. Most of these programs also require students to complete a drug screening test and federal law enforcement background check.

Students entering programs requiring uniforms will be responsible for the purchasing these uniforms.

Each program has a designated color.

The Health Sciences program students wear scrubs.
